Ein herausragendes Standardwerk für automobiles Markenmanagement auf nationaler und internationaler Ebene!

Road & Track Iconic Cars: Mustang Larry Webster 2015-10-26 This eBook collects 50 years of articles and reviews on the iconic American sports car from the experts at Road & Track. Nothing says America like the Ford Mustang, the original pony car and the country's most beloved sporting machine. This fully illustrated volume, pulled from the pages of Road & Track, documents the rise of this automotive icon—the brainchild of crude engineering, modern styling, and fantastic marketing. This eBook looks back across 50 years of coverage, from recaps of Ford's game-changing win at Le Mans in 1966 to the dark years of the Mustang II. There are road tests, comparisons, and reviews from the R&T archives. Taken as a whole, this half-century of automotive journalism demonstrates why the car that defined a generation continues to mean so much to so many.

Canadian Periodical Index 1997

Manual of Transportation Engineering Studies H. Douglas Robertson 1994 The primary focus of the manual is on "how to conduct" transportation engineering studies in the field. Each chapter introduces the type of study and describes the methods of data collection, the types of equipment used, the personnel and level of training needed, the amount of data required, the procedures to follow, and the techniques available to reduce and analyze the data. Applications of the collected data or information are discussed only briefly. The focus is on planning the study, preparing for field data collection, executing the data collection plan, and reducing and analyzing of the data. Guidelines for both oral and written presentation of study results are

offered.
