**Fighting for the Dream** Victoria Moy  
2014-11-04 Fighting for the Dream is a collection of oral histories of 40 Chinese American men and women-ages 24 to 94-who served in wars from World War II to conflicts in Afghanistan. These individuals defied boundaries, went against their cultural grain, and changed history. Through their personal stories, we see a greater tapestry that is the story of America in the last hundred years. This collection includes interviews with the first Asian American general (John Fugh), the first Asian American Assistant Secretary of Defense for Force Management Policy (Frederick Pang), the first Asian American full unrestricted Marine (Kurt Lee), the first Asian American National Commander of the American Legion (Fang Wong), the first Asian American judge in New York State (Randall Eng), as well as some of the 20,000 Chinese Americans - a quarter of the Chinese American population at the time - who served during World War

II. This collection also features the stories of: World War II veterans Genson Lum, Peter Woo, Kay Wong Chin, Dr. Wing Mar, Al Chinn, Earl Jung, Tom Wah Sun Lew, Mack Pong, Sam Jue, Richard Y.W. Leaving the World to Enter the World  
Mark Leenhouts 2005 Leaving the World to Enter the World focuses on the fictional and theoretical writings of Han Shaogong, one of the most striking voices in contemporary Chinese literature. Han played a central role in the 'root-seeking' trend that dominated the literary scene of the People's Republic of China in the mid-1980s. His work has

won him acclaim from a wide range of readers in Chinese and other languages, a highlight being the 1996 novel *Dictionary of Maqiao*. Critics have labeled Han the leader of a nationalist movement in search of a cultural identity. Mark Leenhouts shows that Han's role is much more complex, demonstrating that his literary practice is a highly individual, creative continuation of Chinese tradition. Han's personal style transcends the narrow boundaries of root-seeking as it has been portrayed in literary histories and criticism to date. This rectification of the one-sided image of Han Shaogong has profound implications for the significance of root-seeking literature, and for questions of tradition and modernity that have been among the most hotly debated topics in Chinese literary, intellectual and political thought throughout the 20th century. Leaving the World to Enter the World does justice to the individuality of the literary author by taking the intrinsic structure of the literary work as its starting point. Leenhouts' close textual analysis, as intelligent and pragmatic as it is sensitive, will help counterbalance the socio-political orientation typical of much recent research. By seeing Han Shaogong as a writer rather than a mouthpiece of historical forces, this book opens up new perspectives for enjoying his literary mastery.

**Behind the Silence** Jing-Bao Nie 2005  
Behind the Silence is the first in-depth work in any language to explore the diverse perspectives of mainland Chinese regarding induced abortion and fetal life in the context of the world's most ambitious and intrusive family planning program. Through his investigation of public silence, official standpoints, forgotten controversies from the imperial era,

popular opinions, women's personal stories, doctors' narratives, and the problem of coerced abortion, Nie Jing-Bao brings to light a surprising range of beliefs concerning fetal life and the morality of abortion, yet finds overall an acceptance of national population policies. China's internal plurality, the author argues, must be taken seriously if the West is to open a fruitful cross-cultural dialogue. Visit our website for sample chapters!

**Dream of a Red Factory** Deborah A. Kaple 1994 An examination of the enduring power of communism in China, which argues that China has retained its communist system despite the break-up of similar regimes in other parts of the world, due to peculiarities of the Chinese communist experience, which is a legacy of Stalinism.

**Let 100 Voices Speak** Liz Carter 2015-07-16 From the Occupy movement in the Western world to the Arab Spring and the role of Twitter in the Middle East, the internet and social media is changing the global landscape. China is next. Despite being a heavily-censored society, China has over 560 million active internet users, more than double that of the USA. In this book, social media expert and China-watcher Liz Carter tells the story of how the internet in China is leading to a coming together of activists, ordinary people and cultural trendsetters on a scale unknown in modern history. News about protests and natural disasters, or gossip and satirical jokes, are practically uncensorable and spread quickly through Weibo - the Chinese Twitter - and the Chinese internet underground. More than that, a grassroots, foundational shift of assumptions and expectations is taking place, as Chinese men and women cast off the communistera 'stability at all costs' mantra and find new forms of selfexpression, creativity and communication with the world.

**Chinese Cinemas in Translation and Dissemination** Haina Jin 2021-11-30

Ever since film was brought into China at the end of the nineteenth century, translation has conquered language, ideological and cultural barriers and facilitated the dissemination of films in China. Offering fresh visions and innovative studies on various important issues, including mistranslation, the dubbing of Hong Kong kung fu films, the dubbing of foreign films in China, the subtitling of Chinese dialect films, the subtitling of independent Chinese documentaries, and a vivid personal account of the translation and distribution of Chinese cinemas in France, this book aims to generate international dialogue by presenting diverse approaches to the translation and dissemination of Chinese cinemas. This book builds on previous research and further expands the horizons of the subfield, with the hope that this intervention will suggest new possibilities and territories for the study of the translation of Chinese cinemas. Translated foreign films have become an integral part of Chinese cinemas and translated Chinese films have in turn enriched the concept of world cinema. In many ways, it is a timely publication in the context of the globalization of the film industry - as Chinese films increasingly go global. The chapters in this book were originally published as a special issue of the *Journal of Chinese Cinemas*.

*Documentaries and China's National Image* Chen Yi 2022-08-30 Emphasizing the role of documentary in shaping a nation-state's image, demonstrating social development and promoting cultural exchanges, this book examines the changes in China's national image in documentaries at home and abroad since 1949. Based on theoretical frameworks of media sociology, political economy of communication and cultural studies,

the book traces the development of Chinese documentary and discusses social transformation and cultural representation embodied in documentaries related to China. It is revealed how these works witness, reflect and interact with social transitions in all aspects of a modernizing China, as well as how documentary production struggles among and mediates between technology, market, ideology, social forces and professionalism. In terms of future prospects of documentary in an era when media convergence is burgeoning, the author explores feasible paths to further promotion of cross-cultural communication and China's national image, by analyzing documentary aesthetics and representative cases of documentary practice. The title will appeal to scholars and students interested in culture and communication, documentary, film, media and Chinese society.

*Tiananmen Exiles* Perry Link

2014-04-09 In the spring of 1989, millions of citizens across China took to the streets in a nationwide uprising against government corruption and authoritarian rule. What began with widespread hope for political reform ended with the People's Liberation Army firing on unarmed citizens in the capital city of Beijing, and those leaders who survived the crackdown became wanted criminals overnight. Among the witnesses to this unprecedented popular movement was Rowena Xiaoqing He, who would later join former student leaders and other exiles in North America, where she has worked tirelessly for over a decade to keep the memory of the Tiananmen Movement alive. This moving oral history interweaves He's own experiences with the accounts of three student leaders exiled from China. Here, in their own words, they describe their childhoods

during Mao's Cultural Revolution, their political activism, the bitter disappointments of 1989, and the profound contradictions and challenges they face as exiles. Variouslly labeled as heroes, victims, and traitors in the years after Tiananmen, these individuals tell difficult stories of thwarted ideals and disconnection, but that nonetheless embody the hope for a freer China and a more just world. *The Good Women of China* Xinran 2002 This work presents women's stories collected by Xinran Xue when she was hosting a radio phone-in about women's lives in China. The stories reveal what it means to be a woman in today's China, telling of almost inconceivable suffering as well as love in the face of cruelty and politics.

*China and the American Dream* Richard Madsen 1995-03-08 From the "Red Menace" to Tiananmen Square, the United States and China have long had an emotionally tumultuous relationship. Richard Madsen's frank and innovative examination of the moral history of U.S.-China relations targets the forces that have shaped this surprisingly strong tie between two strikingly different nations. Combining his expertise as a sinologist with the vision of America developed in *Habits of the Heart* and *The Good Society*, Madsen studies the cultural myths that have shaped the perceptions of people of both nations for the past twenty-five years. The dominant American myth about China, born in the 1960s, foresaw Western ideals of economic, intellectual, and political freedom emerging triumphant throughout the world. Nixon's visit to China nurtured this idea, and by the 1980s it was helping to sustain America's hopefulness about its own democratic identity. Meanwhile, Chinese popular culture has focused on the U.S., especially American

consumer goods—Coca-Cola was described by the *People's Daily* as "capitalism concentrated in a bottle." Today we face a new global institutional and cultural environment in which the old myths no longer work for either Americans or Chinese. Madsen provides a framework for us to think about the relationship between democratic ideals and economic/political realities in the post-Cold War world. What he proposes is no less than the foundation for building a public philosophy for the emerging world order.

*Taiwan's Struggle* Shyu-tu Lee 2014-02-18 This comprehensive book explores contemporary Taiwan from the perspective of the Taiwanese themselves. In a unique set of original essays, leading Taiwanese figures consider the country's history, politics, society, economy, identity, and future prospects. The volume provides a forum for a diversity of local voices, who are rarely heard in the power struggle between China and the United States over Taiwan's future. Reflecting the deep ethnic and political differences that are essential to understanding Taiwan today, this work provides a nuanced introduction to its role in international politics.

*Globalization after the Pandemic* Qin

Hui 2021-08-30 The coronavirus pandemic that broke out in 2019 has finally calmed down in China, after the bungling occasioned by the iron hand of lockdown. But beginning in March 2020, the disaster spread abroad, and at present there is no end in sight. Discussions of the changes the pandemic brings to the world, and how "plagues change history," are a hot topic everywhere. In this book, Prof. Qin Hui offers a stunning reflection on the impact of the coronavirus pandemic on political institutions, which are well worth pondering for both China and the West. China, with its "low human rights advantage," has achieved success in imposing coercive lockdowns that got the virus under control after the disastrous outbreak in Wuhan, but it will be a challenge to prevent the normalization of emergency measures from worsening human right conditions in normal times. The West, handicapped by its "human rights (dis)advantage," must learn how a democracy can efficiently enter a state of emergency and put an end to these measures at the proper time. QIN HUI is Retired Professor in Department of History, Tsinghua University, and is now Adjunct Professor in the Department of Government and Public Administration, the Chinese University of Hong Kong. David Ownby is Professor of History and Director of the Center of East Asian Studies at the University of Montreal.. an

*OSS Operation Black Mail* Ann Todd 2017-09-15 OSS Operation Black Mail is the story of a remarkable woman who fought World War II on the front lines of psychological warfare. Elizabeth P. McIntosh spent eighteen life-changing months serving in the Office of Strategic Services in what has been called the "forgotten theater," China-Burma-India, where she met and worked with people as

diverse as Allen Dulles, Julia Child, and Ho Chi Minh. Her craft was black propaganda, and her mission was to demoralize the enemy through prevarication and deceit, and ultimately, convince him to surrender. Betty's effectiveness stemmed from her ability to target not merely the Japanese soldier, but the man with-in: the husband, the son, the father. Her black propaganda was boldly experimental and groundbreaking; destined to play a key role in the Cold War.

**Culture, Music Education, and the Chinese Dream in Mainland China** Wai-Chung Ho 2018-01-04 This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics, transformed authority relations, and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society, and how these factors have influenced the renewal of values-based education and practices in school music education in China.

**Asian Voices in English** Mimi Chan 1991-08-01 A selection of papers presented at the Symposium on English Literature by Asian authors entitled Asian Voices in English held at The University of Hong Kong, 27-30 April 1990. Two kinds of writing experience are focused upon: one is the experience of post-colonial writers,

who are re-appropriating the English language for their own cultural purposes. The other is the experience of immigrant writers, who bring an Asian view to bear on the culture of the English-speaking countries in which they live.

Voices from Tibet Tsering Woesser 2014-01-01 'Voices from Tibet' assembles essays and reportage in translation that capture many facets of the upheavals wrought by a rising China upon a sacred land and its pious people. With the TAR in a virtual lockdown after the 2008 unrest, this book sheds important light on the simmering frustrations that touched off the unrest and Beijing's relentless control tactics in its wake. The authors also interrogate long-standing assumptions about the Tibetans' political future. Woesser's and Wang's writings represent a rare Chinese view sympathetic to Tibetan causes. Their powerful testimony should resonate in many places confronting threats of cultural subjugation and economic domination by an external power.

*Bulletproof Buddhists and Other Essays* Frank Chin 1998 Frank Chin is perhaps the most instantly recognizable voice in Chinese American writing today. A self-proclaimed "transcendent Chinaman pagan heathen barbarian," Chin searches out (or stumbles on) the right people and situations, vividly recording the outcome in distinctively American terms. Here are six of his best essays, spanning the past forty years. Making his way across the U.S. to Cuba, Chin is arrested as an American spy some time between Castro's revolution and the missile crisis. He meets Ben Fee, the man who integrated San Francisco, and is introduced to Southeast Asian gangs and culture in San Diego. He discovers Chinese bachelor society along the California-Mexico border

and travels to Singapore, where he speculates on the fear and suppression of Chinese culture among Chinese Singaporeans. Back at the home front, he encounters the new white racism along Interstate 5 during the Gulf War.

**Personal Voices** Emily Honig 1988  
Dramatic and far-reaching changes have occurred in the lives of Chinese women in the years since the death of Mao and the fall of the Gang of Four. During the decade of the Cultural Revolution, attention to personal life was regarded as 'bourgeois'; in the post-Mao decade, abrupt turns in public policy made discussion of personal life imperative, and nowhere has this been more evident than in the debate about the role of women in Chinese society. This book is based on extensive personal viewing of urban women and study of contemporary literature and articles in the periodical press that touched on the problems of rural women. It is not only about the changes in women's lives but also about the excitement, confusion, and anxieties that Chinese women express as they contemplate the future of their society and their own place in it. Each chapter is devoted to one aspect of women's lives: girlhood, adornment and sexuality, courtship, marriage, family relations, divorce, work, violence against women, and gender inequality. Giving a personal dimension to the issues discussed, the chapters close with a rich sampling of excerpts from the newly thriving women's press and other contemporary publications. Although many women in China still suffer discrimination in working life and mistreatment in the family, they can now raise questions that would have been unthinkable even ten years ago. Most notably, they can and do use the press to voice complaints, expose injustices, seek advice, and support or deplore the social changes

of the 1980's.

**Traum von China** Ma Jian 2019-08-20  
Einen höheren chinesischen Provinzbeamten verfolgen immer häufiger Albträume aus seiner gewalttätigen Vergangenheit in Zeiten der Kulturrevolution. Dabei hat er eigentlich, im Sinne von Xi Jinpings Ideen von einer "verjüngten Gesellschaft", den Auftrag, die Vergangenheit ruhen zu lassen und ein neues China zu erschaffen. Aber er kann nicht vergessen, dass er seine eigenen Eltern ans Messer geliefert hat... In einer schneidenden, Orwell'schen Satire auf Präsident Xi Jinpings "Traum von China"-Propaganda zeigt Ma Jian, was für Mächte da am Werk sind: China heute ist ein totalitärer Überwachungsstaat modernster Prägung mit einer Mischung von nationalistischer Ideologie, grenzenlosem Materialismus und einer Herrschaft durch Gewalt und Lügen. In diesem Roman, der Kunst und Aufruf zum Kampf zugleich ist, verbindet sich die tragische und absurde Realität mit den Kräften des Mythos und der Phantasie zu einem ungeschönten Porträt des Landes an der Schwelle zur Weltherrschaft.

Seventeen-year-old Lily Hu can't remember exactly when the question took root, but the answer was in full bloom the moment she and Kathleen Miller walked under the flashing neon sign of a lesbian bar

called the Telegraph Club. America in 1954 is not a safe place for two girls to fall in love, especially not in Chinatown. Red-Scare paranoia threatens everyone, including Chinese Americans like Lily. With deportation looming over her father - despite his hard-won citizenship - Lily and Kath risk everything to let their love see the light of day.

*China Dreams* Chih-Shian Liou 2015-01-29 With the theme "China Dreams: Opportunities and Challenges," this book contributes to emerging debates on Chinese new leadership's adaptability to important political, economic, social, and global issues. Can China's political system sustain "China Dreams", a slogan ushered by Chinese President Xi Jinping? Does the fulfillment of "China Dreams" require political reform? Does the initiation of the agenda of "China Dreams" facilitate China's economic transition? To what extent does "China Dreams" pave the way for China's peaceful rise? By exploring the preceding questions, the essays by Lowell Dittmer, Thomas Gold, Victoria Tin-bor Hui, Chin-fu Hung, Scott L Kastner, Huey-Lin Lee & Scott Y Lin, Chih-shian Liou, Raviprasad Narayanan, Kellee S Tsai, and Chung-min Tsai provide a comprehensive analysis of the agenda of China's new leadership. Key Features:A timely and comprehensive treatment of the issues associated with "China Dreams" In-depth analyses by leading scholars in China Studies Keywords:The China Dream; Xi Jinping; Chinese Leadership; Chinese Communist Party; China Reviews: "In this timely and pioneering publication, the authors asked the questions of where China wants to go and where it is actually going. While Mr Xi Jinping's 'China Dreams' suggested an all-encompassing China agenda, the imagination, interpretation and realization of the Dreams have been far more dynamic and not necessarily coherent. This well-edited volume covers key areas of China's political, economic and social development under Xi's leadership. The collection stands out in its balanced treatment of both the state and grassroots actors, and both the shared and separate dreams. It also makes a great contribution to the literature on Global China, as much of the 'China Dreams' is inevitably connected with the dreams of other peoples and countries." You-tien Hsing Professor of Geography Pamela P Fong and Family Distinguished Chair in China Studies Chair of Center for Chinese Studies University of California at Berkeley "Written by

leading scholars of Chinese politics, economics, history, and society, this volume is one of the first to analyze Chinese leader Xi Jinping's notion of 'China Dreams'; Exploring both the content and likely impact of Xi's 'China Dreams', the authors paint a multifaceted picture of China's historical development, current status, and future trajectory – both domestically and internationally. Their findings suggest that China's leaders face substantial challenges, and that the realization of Xi's 'Dreams' may not be smooth. Some groups and vested interests appear determined to resist or redirect Xi's 'Dreams'. And there are signs that conflict and tension may accelerate, not only between the Chinese party-state and its people, but also within the party-state, and between China and other countries. For readers seeking a wide range of perspectives on China's rise, this volume provides much food for thought." Teresa Wright Chair and Professor of Political Science, California State University **China Dreams** William A. Callahan 2015-04-01 After celebrating their country's three decades of fantastic economic success, many Chinese are now asking, "What comes next?" How can China convert its growing economic power into political and cultural influence around the globe? William A. Callahan's China Dreams gives voice to China's many different futures by exploring the grand aspirations and deep anxieties of a broad group of public intellectuals. Stepping outside the narrow politics of officials vs. dissidents, Callahan examines what a third group--"citizen intellectuals"--think about China's future. China Dreams eavesdrops on fascinating conversations between officials, scholars, soldiers, bloggers, novelists, film-makers and artists to see how they describe China's different political,

strategic, economic, social and cultural futures. Callahan also examines how the PRC's new generation of twenty- and thirty-somethings is creatively questioning "The China Model" of economic development. The personal stories of these citizen intellectuals illustrate China's zeitgeist and a complicated mix of hopes and fears about "The Chinese Century," providing a clearer sense of how the PRC's dramatic economic and cultural transitions will affect the rest of the world. China Dreams explores the transnational connections between American and Chinese people, providing a new approach to Sino-American relations. While many assume that 21st century global politics will be a battle of Confucian China vs. the democratic west, Callahan weaves Chinese and American ideals together to describe a new "Chimerican dream."

**Shanghai 1937** Peter Harmsen  
2015-10-20 The New York Times  
bestseller that inspired the documentary Shanghai 1937: Where World War II Began on Public Television. At its height, the Battle of Shanghai involved nearly a million Chinese and Japanese soldiers while sucking in three million civilians as unwilling spectators—and often victims. It turned what had been a Japanese imperialist adventure in China into a general war between the two oldest and proudest civilizations of the Far East. Ultimately, it led to Pearl Harbor and to seven decades of tumultuous history in Asia. The Battle of Shanghai was a pivotal event that helped define and shape the modern world. In its sheer scale, the struggle for China's largest city was a sinister forewarning of what was in store only a few years later in theaters around the world. It demonstrated how technology had given rise to new forms of warfare and had made old forms even more lethal.

Amphibious landings, tank assaults, aerial dogfights, and—most important—urban combat all happened in Shanghai in 1937. It was a dress rehearsal for World War II—or, perhaps more correctly, it was the inaugural act in the war, the first major battle in the global conflict. Actors from a variety of nations were present in Shanghai during the three fateful autumn months when the battle raged. The rich cast included China's ascetic Generalissimo Chiang Kai-shek and his Japanese adversary, General Matsui Iwane, who wanted Asia to rise from disunity, but ultimately pushed the continent toward its deadliest conflict ever. Claire Chennault, later of "Flying Tiger" fame, was among the figures emerging in the course of the campaign, as was First Lady Eleanor Roosevelt. In an ironic twist, Alexander von Falkenhausen, a stern German veteran of the Great War, abandoned his role as a mere advisor to the Chinese army and led it into battle against the Japanese invaders. Shanghai 1937 fills a gaping chasm in our understanding of the War of Resistance and the Second World War.

Rhetoric of the Chinese Cultural Revolution Xing Lu 2004 Now known to the Chinese as the "ten years of chaos," the Chinese Cultural Revolution (1966-1976) brought death to thousands and persecution to millions. Xing Lu identifies the rhetorical features and explores the persuasive effects of political language and symbolic practices during the period. She examines how leaders of the Communist Party enacted a rhetoric in political contexts to legitimize power and violence and to dehumanize a group of people identified as class enemies.

**Chinese American Voices** Judy Yung 2006 "Skillfully selected, translated, and annotated, this

compelling compendium of voices bear witness to the diversity and depth of the Chinese American experience and, significantly, its indispensable centrality to American life and history."--Gary Y. Okihiro, author of *Common Ground: Reimagining American History* "Here at last is a wide-ranging record of Chinese American experiences from the viewpoints of the players. *Chinese American Voices* is an impressive feat of scholarship, an indispensable reference, and a compelling read."--Ruthanne Lum McCunn, author of *Thousand Pieces of Gold* and *The Moon Pearl* "This anthology offers a virtual "Gam Saan" (Gold Mountain) of original sources. The stories burst with telling and re-affirm a vision of men and women as actors in history, who made themselves as Chinese Americans as they helped to make America itself."--Ronald Takaki, author of *Strangers from a Different Shore: A History of Asian Americans* "This volume of sixty-two annotated documents, many translated from Chinese for the first time, is a boon to faculty and students interested in Chinese American history, Asian American history, U.S. immigration history, and race and ethnic relations. The life stories, in particular, are appealing for students, the reading public, and scholars alike as they hear the voices of individuals long misunderstood, denigrated, and silenced. All of us owe a debt of gratitude to the three editors for their dedicated labor of love."--Sucheng Chan, author of *Chinese American Transnationalism: The Flow of People, Resources, and Ideas between China and America during the Exclusion Era* "This is a superb collection."--Roger Daniels, author of *Guarding the Golden Door: American Immigration Policy and Immigrants since 1882*
