Multicultural and Multilingual Literacy and Language Fenice B. Boyd 2004-01-01 Within a clear conceptual framework, this book explores ways that teachers, reading specialists, administrators, and teacher educators can provide more effective literacy instruction to K-9 students from diverse ethnic, cultural, and linguistic backgrounds. Cutting-edge theory and research is interwoven with detailed case studies that bring to life the complexities of teaching in today's multicultural and multilingual classroom. Topics covered include: *How and why culture matters in literacy instruction *Drawing on students' multiple literacies in the classroom *Motivating and engaging English-language learners *Steps that teachers can take to heighten their cultural awareness and skills *Tapping into family and community resources for literacy learning

**Teaching Olaudah Equiano's Narrative** Eric D. Lamore 2012-11-30 The Interesting Narrative of the Life of Olaudah Equiano, or Gustavus Vassa, the African. Written by Himself (1789) is one of the most frequently and heatedly discussed texts in the canon of eighteenth-century transatlantic literature written in English. Equiano's Narrative contains an engrossing account of the author's experiences in Africa, the Americas, and Europe as he sought freedom from bondage and became a leading figure in the abolitionist movement. While scholars have approached this sophisticated work from diverse critical and historical/biographical perspectives, there has been, until now, little written about the ways in which it can be successfully taught in the twenty-first-century classroom. In this collection of essays, most of them never before published, sixteen teacher-scholars focus explicitly on the various classroom contexts in which the Narrative can be assigned and various pedagogical strategies that can be used to help students understand the text and its complex cultural, intellectual, literary, and historical implications. The contributors explore topics ranging from the religious dimensions of Equiano's rhetoric and controversies about his origins, specifically whether he was actually born in Africa and endured the Middle Passage, to considerations of the Narrative's place in American Literature survey courses and how it can be productively compared to other texts, including captivity narratives and modern works of fiction. They not only suggest an array of innovative teaching models but also offer new readings of the work that have been overlooked in Equiano studies and Slavery studies. With these two dimensions, this volume will help ensure that conversations over Equiano's eighteenth-century autobiography remain relevant and engaging to today's students. ERIC D. LAMORE is an assistant professor of English at the University of Puerto Rico at Mayagüez. A contributor to The Greenwood Encyclopedia of American Poets and Poetry, he is also the coeditor, with John C. Shields, of New Essays on Phillis Wheatley.

Wham! Teaching with Graphic Novels Across the Curriculum William G. Brozo 2014 Graphic novels are an excellent medium to motivate today's youth to become independent learners and thinkers. This practical guide shows secondary school teachers how to incorporate graphic novels into content area instruction as a tool for meeting the needs of diverse learners and achieving the goals of the Common Core State Standards. The authors provide instructional guidelines with classroom examples that demonstrate how graphic novels can be used to expand content knowledge and literacy in science, social studies, math, and English/language arts. Teachers will appreciate the book's specific suggestions for selecting graphic novels and for employing responsive practices that will build students' reading, writing, speaking, listening, and media competencies. "The range and complexity of graphic novels being published right now is simply amazing to me. . . . They are part of what should be a balanced array of texts that all can read, enjoy, and learn from. In this volume, the authors point to this proliferation, as well as the educative potential of graphic novels. After reading its pages, I feel others will agree with me that they have done an excellent job pointing out how graphic novel creators such as Jim Ottaviani and Larry Gonick communicate much about history, science, and mathematics while also making connections to comprehension and thinking skills that accompany both literacy and content-specific learning." —From the Foreword by Stergios Botzakis, assistant professor of adolescent literacy in the Theory and Practice in Teacher Education Department at The University of Tennessee, Knoxville "The authors have set forth on a task I feel long is overdu—connecting the literacy potential of graphic novels to the content areas. This book is a wonderful contribution to the field of content area literacy studies." —Michael D. Boatright, assistant professor, Department of English, Western Carolina University Book Features: Advice for selecting and evaluating graphic novels. Teaching strategies for each of the four major content domains. Guidance for aligning instruction with the Common Core State Standards. A list of educational graphic novels organized by content area. Study group questions.And more! William G. Brozo is a professor of literacy in the Graduate School of Education at George Mason University in Fairfax, Virginia, and author of RTI and the Adolescent Reader. Gary Moorman is professor emeritus at Appalachian State University in Boone, North Carolina. Carla K. Meyer is an assistant professor in the Reading Education and Special Education Department at Appalachian State University.
