**Sound Heritage** Jeanice Brooks  
2021-12-31 Sound Heritage is the  
first study of music in the historic

house museum, featuring  
contributions from both music  
and heritage scholars and  
professionals in a richly

interdisciplinary approach to central issues. It examines how music materials can be used to create narratives about past inhabitants and their surroundings - including aspects of social and cultural life beyond the activity of music making itself - and explores how music as sound, material, and practice can be more consistently and engagingly integrated into the curation and interpretation of historic houses. The volume is structured around a selection of thematic chapters and a series of shorter case studies, each focusing on a specific house, object or project. Key themes include: Different types of historic house, including the case of the composer or musician house; what can be learned from museums and galleries about the use of sound and music and what may not transfer to the historic house setting Musical instruments as part of a wider collection; questions of restoration

and public use; and the demands of particular collection types such as sheet music Musical objects and pieces of music as storytelling components, and the use of music to affectively colour narratives or experiences. This is a pioneering study that will appeal to all those interested in the intersection between Music and Museum and Heritage Studies. It will also be of interest to scholars and researchers of Music History, Popular Music, Performance Studies and Material Culture. [American Music: A Panorama](#), [Concise](#) Lorenzo Candelaria 2014-01-01 This concise, accessible book describes American music as a panorama of distinct yet parallel streams--hip-hop and Latin; folk and country; gospel and classical; jazz, blues, and rock--that reflect the uniquely diverse character of the United States. Comparing and contrasting musical styles across regions and time, the author delivers a vision of American

music both exuberant and inventive--a music that arises out of the history and musical traditions of the many immigrants to America's shores. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Excursions in World Music,

Seventh Edition Bruno Nettl

2016-08-05 Excursions in World

Music is a comprehensive introductory textbook to world music, creating a panoramic experience for students by engaging the many cultures around the globe and highlighting the sheer diversity to be experienced in the world of music. At the same time, the text illustrates the often profound ways through which a deeper exploration of these many different communities can reveal overlaps, shared horizons, and common concerns in spite of and, because of, this very diversity. The new seventh edition introduces five brand new chapters, including chapters by three new contributors on the Middle East, South Asia, and Korea, as well as a new chapter on Latin America along with a new introduction written by Timothy Rommen. General updates have been made to other chapters, replacing visuals and

updating charts/statistics. Excursions in World Music remains a favorite among ethnomusicologists who want students to explore the in-depth knowledge and scholarship that animates regional studies of world music. A companion website is available at no additional charge. For instructors, there is a new test bank and instructor's manual. Numerous student resources are posted, including streamed audio tracks for most of the listening guides, interactive quizzes, flashcards, and an interactive map with pinpoints of interest and activities. An ancillary package of a 3-CD set of audio tracks is available for separate purchase.

Assessing L2 Listening Gary J. Ockey 2018-08-08 This book is relevant for language testers, listening researchers, and oral proficiency teachers, in that it explores four broad themes related to the assessment of L2 listening ability: the use of authentic, real-world spoken texts; the effects of different speech varieties of listening inputs; the use of audio-visual texts; and assessing listening as part of an interactive

speaking/listening construct. Each theme is introduced with a review of the relevant literature, and then is examined through either two or three empirical studies. The notion of authenticity underlies each of these four themes. By creating more authentic test tasks that are similar to real world language tasks, test developers can create listening assessments that not only more effectively assess test takers' communicative competence, but can also have a positive washback effect on educational systems.

**The Red Shoes** John Stewart Wynne 2013-06-19 "I read this so fast I got blisters turning pages. The Red Shoes is so astonishingly good, original, beautiful and amazing... I think The Red Shoes is a great work of art."—Kate Christensen, winner of the PEN/Faulkner Best American Work of Fiction Award for *The Great Man In The Red Shoes*, narrator John Laith is mourning the untimely death of his partner, Frank, and is trying to recover from that loss. An active participant in a Twelve Step grief recovery group, he has a loving, supportive network of friends. Yet he feels something is missing, an ability to put his sorrow aside and once again feel the full force of life, its promise of

excitement and abandon. An opportunity presents itself in the form of a present given to him—a pair of shiny red shoes—by a handsome eighteen-year-old modern dancer, who failed to make his mark in the city as an artist. When Laith helps him following an assault, the dancer has nothing to offer by way of thanks except his red shoes. Laith now possesses the sparkling red shoes. Or perhaps they possess him—propelling him on a perilous journey through both the affluent and seedy sides of a vividly brought to life Manhattan at the turn of the millennium. An innocent in a sinister underworld, Laith tries to survive his newfound ties to unpredictable and chillingly unforgettable characters. Laith inexplicably cannot escape his fascination with exploring the dark side. Is it because of the terrible magical powers of those red shoes? Or is it because of some hidden desire within

himself? A riveting battle between the sacred and the profane is at war inside him—and in the end there comes a shocking moment of realization where he must finally choose between them.

**Participatory Methodologies to Elevate Children's Voice and**

**Agency** Ilene R. Berson  
2019-03-01 This volume of the Research in Global Child Advocacy Series explores participatory methodologies and tools that involve children in research. Perspectives on the role of children have transitioned from viewing children as objects of research, to children as subjects of research, to acknowledgement of children as competent contributors and agents throughout the inquiry process. Researchers continue to explore approaches that honor the capacity of children, drawing on diverse methodologies to elevate children's voices and actively engage them in the production of knowledge. Nonetheless, despite these developments, questions over the extent to which children can be free of adult filters and influence merits sustained scholarly attention. The book includes chapters that critically examine methodological approaches that empower

children in the research process. Contributions include empirical or practitioner pieces that operate from an empowerment paradigm and demonstrate the agenic capacity of children to contribute their perspectives and voices to our understanding of childhood and children's lives. The text also features conceptual pieces that challenge existing theoretical frameworks, critique research paradigms, and analyze dilemmas or tensions related to ethics, policy and power relations in the research process.

**Life Review In Health and Social Care** Jeff Garland 2005-11-08

How can understanding our past help us face the future? The key to gaining awareness of the

present and preparing for the future lies in our understanding of the past, yet there is little coverage of this topic in the existing psychology and counselling literature. How can people improve themselves by greater self-knowledge? Jeff and Christina Garland break new ground in making a straightforward presentation of the theory and practice of the everyday process of life review, which is a therapeutic approach for helping clients make sense of their past, and can be used to help change undesirable behaviour and plan for the future. The theory and structure of the life review process are examined, and clinical examples of how it works in practice are given; this includes interviews both with "narrators" (people engaged in life review) and "listeners" (health and social care professionals). These examples demonstrate how professionals can use life review to help their

clients overcome difficulties in their lives and face the future with confidence. Life Review will appeal to trainees and practitioners in occupational, developmental, clinical and health psychology, social work, counselling, psychotherapy and nursing.
