*Liberalism's Last Hurrah* Robert H Donaldson 2015-04-08 Marked by sharp ideological divisions over civil rights, Vietnam, and federal power, the 1964 presidential campaign between Democrat Lyndon Johnson and Republican Barry Goldwater proved a watershed election in American history. Although Johnson defeated Goldwater in a landslide and liberalism seemed to ride triumphant, the liberal wave crashed almost immediately and conservatives came to dominate a resurgent Republican Party in the late twentieth century. Thoroughly researched and beautifully written, this is the first historical account of this crucial election, and the transition it marked for the nation. Filled with colorful details and fascinating figures - Johnson, Goldwater, Wallace, Rockefeller, Nixon, Reagan, Robert Kennedy, Martin Luther King, Jr., George Bush, and many more - it captures the full excitement, drama, and significance of "liberalism's last hurrah."

**She Preached the Word** Benjamin R. Knoll 2018-06-01 She Preached the Word is a landmark study of women's ordination in contemporary American congregations. In this groundbreaking work, Benjamin R. Knoll and Cammie Jo Bolin draw upon a novel collection of survey data and personal narrative interviews to answer several important questions, including: Who supports women's ordination in their congregations? What are the most common reasons for and against women's ordination? What effect do female clergy have on young women and girls, particularly in terms of their psychological, economic, and religious empowerment later in life? How do women clergy affect levels of congregational attendance and engagement among members? What explains the persistent gender gap in America's clergy? Knoll and Bolin find that female clergy do indeed matter, but not always in the ways that might be expected. They show, for example, that while female clergy have important effects on women in the pews, they have stronger effects on theological and political liberals. Throughout this book, Knoll and Bolin discuss how the persistent gender gap in the wider economic, social, and political spheres will likely continue so long as women are underrepresented in America's pulpits. Accessible to scholars and general readers alike, She Preached the Word is a timely and important contribution to our understanding of the intersection of gender, religion, and politics in contemporary American society.

Colour: The Professional's Guide Karen Triedman 2015-11-05 Colour is one of the most complex elements of design and it is also what people respond to first on an emotional level, whether they are surveying a restaurant interior or browsing an online catalogue. An in-depth understanding of colour is one of the most important and useful assets available to a visual professional. Working successfully with colour in a global community involves understanding colour theory and psychology, as well as geographical and historical reference. This information is covered thoroughly, with clear and precise explanations and examples. Colour: The Professional's Guide is comprehensive, offering informative techniques, examples, inspiration and, above all, exemplary solutions to fit the designer's every need, whatever their discipline. Beautifully illustrated with over 300 colour images, this guide removes the grey areas from the full colour world of contemporary design, providing designers from all disciplines with everything they need to become true, confident

colourists.

Early American Cultures Tim McNeese 2002-09-01 This packet provides a detailed and richly illustrated overview of the lives of the first Americans. Styles of shelter, modes of travel and transport, tribal beliefs, habits, practices, and the unique structures of various tribal societies are discussed. Challenging review questions encourage meaningful reflection and historical analysis. A map, test, answer key, and extensive bibliography are included.

*History of Criminal Justice* Mark Jones 2011-07-11 Covering criminal justice history on a cross-national basis, this book surveys criminal justice in Western civilization and American life chronologically from ancient times to the present. It is an introduction to the historical problems of crime, law enforcement and penology, set against the background of major historical events and movements. Integrating criminal justice history into the scope of European, British, French and American history, this text provides the opportunity for comparisons of crime and punishment over boundaries of national histories. The text concludes with a chapter that addresses terrorism and homeland security. \* Spans all of western history, and examines the core beliefs about human nature and society that informed the development of criminal justice systems. The fifth edition gives increased coverage of American law enforcement, corrections, and legal systems \* Each chapter is enhanced with supplemental "Timeline," "Time Capsule," and "Featured Outlaw" boxes as well as discussion questions, notes and problems \* Contains discussion questions, notes, learning objectives, key terms lists, biographical vignettes of key historical figures, and "History Today" exercises to engage the reader and encourage critical thinking

**Encyclopedia Of Freemasonry And Its Kindred Sciences, Volume 3: M-R** Albert G. Mackey Dr. Albert G. Mackey appears as author of this "Encyclopedia of Freemasonry and its Kindred Sciences," which, being a library in itself, superseded most of the Masonic works which have been tolerated by the craft — chiefly because none better could be obtained. Here is a work which fulfils the hope which sustained the author through ten years' literary labor, that, under one cover he "would furnish every Mason who might consult its pages the means of acquiring a knowledge of all matters connected with the science, the philosophy, and the history of his order." Up to the present time the modern literature of Freemasonry has been diffuse, lumbering, unreliable, and, out of all reasonable proportions. There is, in Mackey's "Encyclopaedia of Masonry," well digested, well arranged, and confined within reasonable limits, all that a Mason can desire to

find in a book exclusively devoted to the history, the arts, science, and literature of Masonry. This is volume three out of four and covering the letters M to R.

**Religious Books, 1876-1982** R. R. Bowker 1983

*GCSE History for WJEC Specification* Paul Barnes 2003 This student book includes exam practice questions and a mixture of in-depth and outline studies. It comprehensively covers the outlines studies "USA 1929-1990" and "Germany 1919-91", the most popular choice in schools

*A History of Long Island, Vol. 2* Peter Ross With these books an effort has been made to present the history of the whole of Long Island in such a way as to combine all the salient facts of the long and interesting story in a manner that might be acceptable to the general reader and at the same time include much of that purely antiquarian lore which is to many the most delightful feature of local history. Long Island has played a most important part in the history of the State of New York and, through New York, in the annals of the Nation. It was one of the first places in the Colonies to give formal utterance to the doctrine that taxation without representation is unjust and should not be borne by men claiming to be free—the doctrine that gradually went deep into the hearts and consciences of men and led to discussion, opposition and war; to the declaration of independence, the achievement of liberty and the founding of a new nation. It took an active part in all that glorious movement, the most significant movement in modern history, and though handicapped by the merciless occupation of the British troops after the disaster of August, 1776, it continued to do what it could to help along the cause to which so many of its citizens had devoted their fortunes, their lives. This is volume two out of three, covering the history of Kings County, Brooklyn and Queens.

**Hanoi's Road to the Vietnam War, 1954-1965** Pierre Asselin 2015-08-18 "Using new and largely inaccessible Vietnamese sources as well as French, British, Canadian and American archives, Pierre Asselin sheds valuable light on Hanoi's path to war. Step by step the narrative makes Hanoi's revolutionary strategy from the end of the French Indochina War to the start of the Anti-American Resistance Struggle for Reunification and National Salvation (the Vietnam War) transparent. The book reveals how North Vietnamese leaders moved from a cautious policy emphasizing nonviolent political and diplomatic struggle to a far riskier pursuit of military victory"--

*Democracy for Hire* Dennis W. Johnson 2016-10-18 Though they work largely out of the public eye, political consultants—"image merchants" and "kingmakers" to candidates—play a crucial role in shaping campaigns. They persuaded Barry Goldwater to run for president, groomed former actor Ronald Reagan for the California governorship, helped derail Bill Clinton's health care initiative, and carried out the swiftboating of John Kerry. As Dennis Johnson argues in this sweeping history of political consulting in the United States, they are essential to modern campaigning, often making positive contributions to democratic discourse, and yet they have also polarized the electorate with their biting messages. During the nineteenth and early twentieth centuries, political campaigns were run by local political parties, volunteers, and friends of candidates; but as party loyalties among voters began to weaken, and political parties declined as sources of manpower and strategy, professional consultants swept in to fill the void. Political consulting emerged as a profession in the 1930s with publicists Leone Baxter and Clem Whitaker, the husband and wife team who built their business, in part, with a successful campaign to destroy Upton Sinclair's 1934 bid for governor of California. With roots in advertising and public relations, political consulting has since developed into a highly professionalized business generating hundreds of millions of dollars. In fact, some of the top campaign consulting firms have merged with others to form multinational public relations conglomerates, serving not just candidates but also shaping public advocacy campaigns for businesses and nonprofits. Johnson, an academic who has also worked on campaigns alongside the likes of James Carville and pollster Paul Begala, suffuses his history with the stories of the colorful characters who have come to define the profession of consulting, from its beginning to the present. More than just the story of the making of a political business, *Democracy for Hire's* wide-ranging history helps us to better understand the very contours of modern American politics.
